

There is nothing we want more than to put on safe and successful Milford Memories this summer - for the economic impact to the community, and the overall joy a summer festival can bring. It is with heavy hearts that the Huron Valley Chamber of Commerce, Village of Milford, Milford Police Department, and Milford Memories Committee have made the decision to cancel this year's Milford Memories Summer Festival and begin turning our attention to planning for the 2021 festival, scheduled for August 13-15, 2021.

The safety and health of our community, guests, volunteers, and staff is our first priority and always top of mind when making decisions, along with being able to provide a quality event. We did not make this decision lightly and it was a very difficult decision that came after hours of discussion and evaluation of options. We ran through multiple scenarios to see if a scaled down event or some other option existed to hold a safe and successful event this summer. With the current uncertainty around holding large events and unknown guidelines and requirements for events in August, we are unable to be fully confident in the fact it will be safe or permitted.

With this decision now made, we can direct our energy to assist the community in its time of need and we urge everyone to do the same. Support your local businesses and non-profit groups. We thank you for your support and patience with us making this decision. We wanted to wait as long as we could before making a final decision. We are going to start working now to bring you an amazing Milford Memories 2021!
